

CARPENTARIA SEAFARIS

CAPE YORK

WILDERNESS FISHING ADVENTURES

SO MANY FISH. SO LITTLE TIME

The diverse range of fish you will encounter on one of our adventures is simply incredible. Barramundi, Giant Travally, Spanish Mackerel, Queenfish and Permit are just some of the 63 plus species just waiting for you to make the cast.

And no matter how you like to fish - fly fishing, plug casting, spinning, trolling or bait - we cater for it all. Our world class professional fishing guides are always on hand to advise and support you in your quest to land that big one! If your passion is fishing then the Seafaris experience will take your breath away.

Fish like you've never fished before as we take you to the wild frontier of Cape York's west coast. Remote and secluded, you're assured of absolute success because this really is "the best weeks fishing on the planet". Tuna, Jacks, Coral Trout and Goldens and many many others like you've never seen before - it's all there just waiting for you!

WILDERNESS FISHING EXPERIENCE

Nothing on Earth matches the fishing found in the tropical waters off the tip of Cape York, Far North Queensland. Pristine, untouched and teeming with fish, the rivers, flats and reefs that comprise these waters truly are an anglers paradise - the ultimate fishing adventure.

From the waters of western Cape York, to the far, far northern outer Great Barrier Reef, if your passion is fishing then you need to talk to us!

CRUISE THE NORTHERN WATERS IN STYLE

Enjoy luxury afloat aboard the 63 foot (19 meter) Tropic Paradise. This purpose built catamaran, complete with several large guided skiffs and self drive tenders, provides the perfect platform for exploring the remote waters of northern Australia.

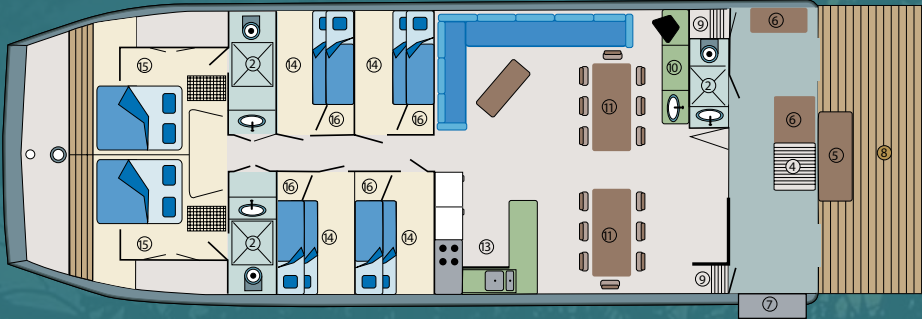

Whether enjoying drinks at sunset on the expansive top deck or battling a huge Giant Trevally from the beach, you're guaranteed a fishing trip of a lifetime.

You'll be traveling in style and resting in comfort in shared twin bunk and double bed ensuite cabins, either way all cabins are large and airy (or airconditioned) and all beds are full size with inner spring mattresses.

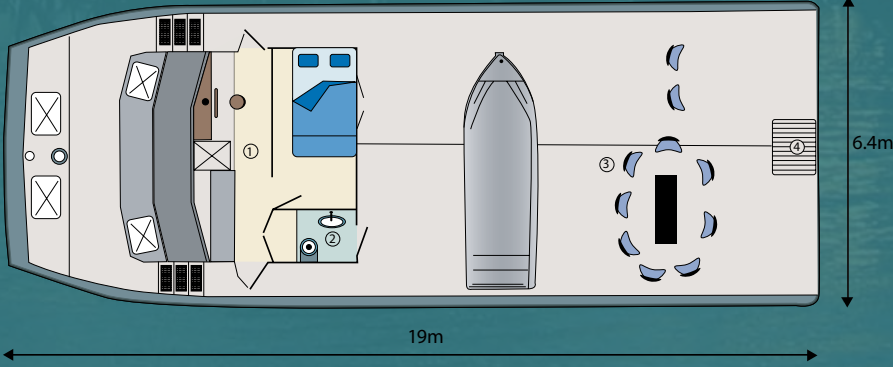

After a great day's fishing what better way to relax than with a delectable gourmet meal prepared by our resident chef and served with complimentary fine Australian wines.

PLAN ON LOWER DECK

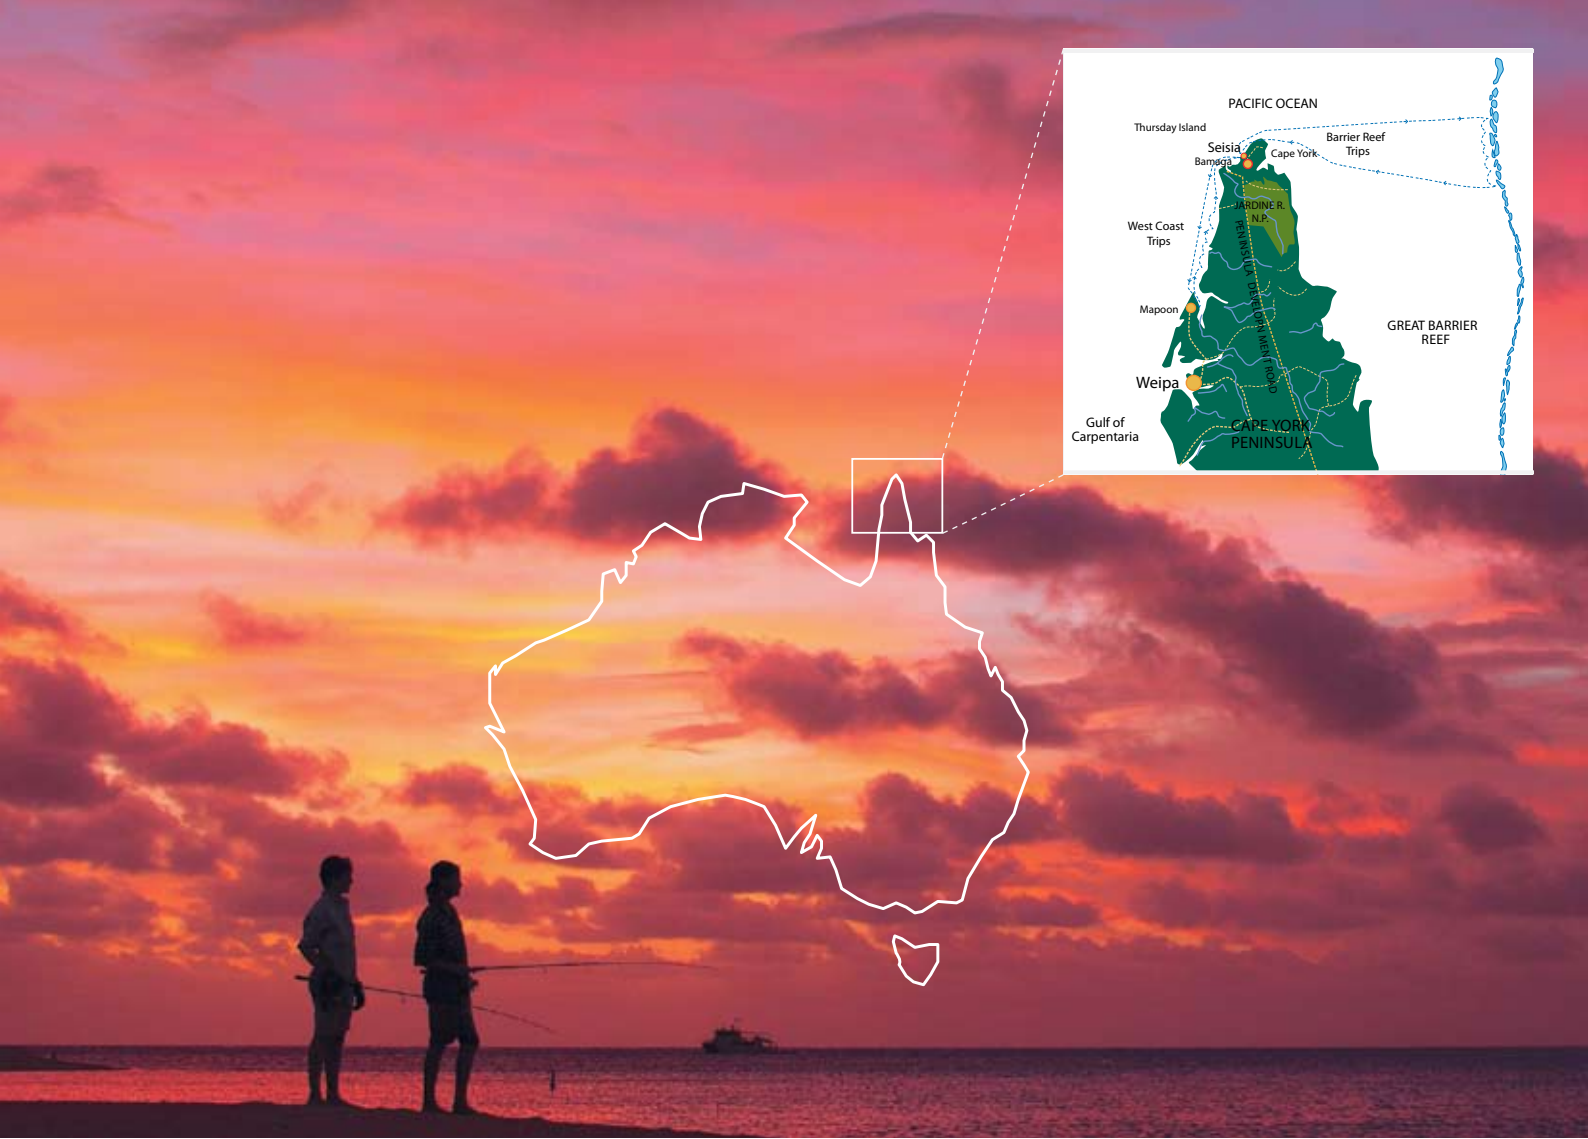

PLAN ON UPPER DECK

Built for Carpentaria Seafaris in 2002 our mothership is a very spacious and stable vessel with two expansive decks of 120sqm each, constant 240 volt supply through out, and a service speed of 10 knots from 2 x 220hp Cummins diesels. A magnificent vessel providing comfort, security and safety in our remote *Tropical Paradise*.

MIND BLOWING REEF FISHING

Let us take you fishing to a place like no other - the edge of the continental shelf, the unfished northern most section of the Great Barrier Reef. It is in these virgin waters that you'll discover the magic of extreme reef fishing in the tropics where large resident and pelagic species abound. Visualise casting over the reef top, into crystal clear waters only 6 feet deep and having your surface plug smashed by monster reef species. This is the place where your skills are tested and life time memories are made.

Choose from two amazing fishing adventures. For more information on these exciting escapes please see our comprehensive, constantly up dated website or contact us for all the details.
